

World Hand Hygiene Day

SAVE LIVES: Clean Your Hands 5 May 2023

Accelerate Action Together

Multimodal Hand Hygiene Improvement Strategies

1 System change

Environment improvement to practice hand hygiene, anytime anywhere

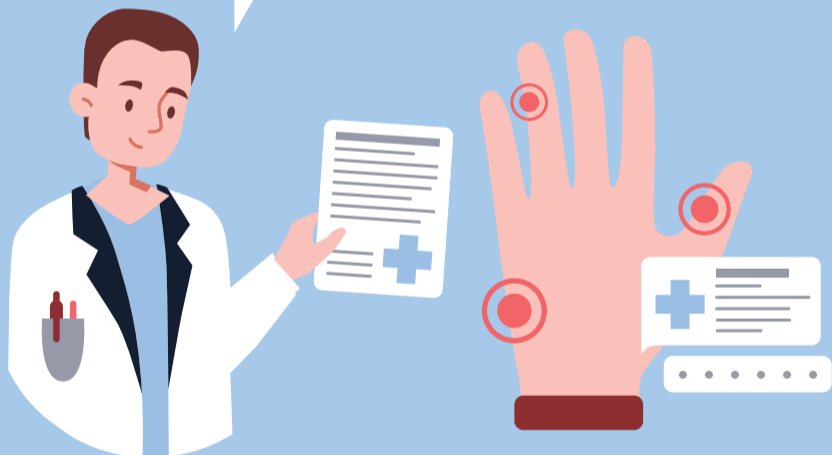

2 Training and education

Educate and learn proper hand hygiene technique and timing

3 Evaluation and feedback

Conduct hand hygiene direct observation and immediate feedback

4 Reminders in the workplace

Post reminders and posters where hand hygiene is needed

5 Institutional safety climate

Create an atmosphere and structure that encourages hand hygiene practice
